LANGUAGES

- English
- Some Spanish

PROJECTS

gottaGO

This is an application that was created for users to be able to review any local restroom that they may have visited or they can perform a search based on zip code and return all reviews that others may have submitted in that area. All reviews display info about the business as well as detailed information about the restroom. .
- HTML
- CSS
- Javascript
- Restful API's
- Node
- MYSQL
- Express
